

Expansion Loop Cost Comparison

Option 1: Traditional expansion loop with four elbows

	2"-Sch 160		3"-Sch 160		4"-Sch 160	
Size	20'x10'		20'x10'		25'x15'	
Elbow	\$	169	\$	204	\$	337
Pipe	\$	321	\$	531	\$	826
Welds	\$	240	\$	360	\$	480
Support	\$	1,950	\$	1,950	\$	1,950
Total:	\$	2,680	\$	3,045	\$	3,592

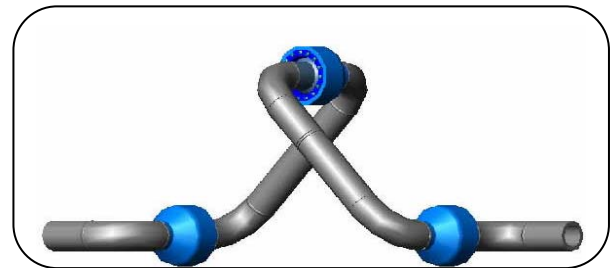

Note:

Each loop is designed to accommodate approximately 6-inches of growth.

Option 2: Expansion loop with 2-Rotaballs & 1-Flexball.

	2"-Sch 160		3"-Sch 160		4"-Sch 160	
Elbow	\$	254	\$	306	\$	505
Pipe	\$	64	\$	106	\$	165
Welds	\$	240	\$	360	\$	480
Flexball	\$	688	\$	1,051	\$	1,912
Rotaball	\$	1,377	\$	2,101	\$	3,823
Support	\$	-	\$	-	\$	-
Total:*	\$	2,623	\$	3,925	\$	6,886

Note:

Each Rotaball assembly has been designed for 12-inches of growth. This is a total reduction of your projects' costs!

BlueSky's flexible piping connectors have been developed to meet industry's need for high quality, cost effective flexible piping connectors with enhanced mechanical and sealing properties. BlueSky's Rotaball and Flexball have been designed to be superior to competitors' offerings while still being cost-competitive.

Bluesky Process Solutions is ISO 9001 (Cert No. Q2645) certified.

Bluesky Process Solutions and Systems Measurement Services, LP have teamed up for the fabrication of expansion loops, well head and other custom designed applications. Each joint will be pre-adjusted and tested in accordance with the applicable piping code. By choosing the Rotaball or Flexball, you will have trained technicians ready should there be a need for maintenance.

* Please notice that the pricing listed above was constructed using the list pricing. Most applications require special pricing depending on the quantity and required delivery on the items. Please contact Systems Measurement Services, LP for pricing and delivery.
